2024 Before and After Photo and Story

The Petfinder Foundation Before and After 2024 Video is NOT a product or cash grant program. However, we would love the opportunity to share your life-changing work with the world. This video is a great way to gain additional exposure for your organization and the pets in your care. There is no limit; please complete as many submissions as you would like.

We look forward to reviewing your photos and stories!

If you would like to be considered for inclusion in the video, please submit your very best before-and-after pics from 2024. Be sure to include the pet's name and the details of his or her story. Also, let us know the outcome if the pet was adopted or is still in need of a forever home.

Your submission will have greater chances of being selected if:

The photos are **in focus and well-lit**

The photos are **vertical** (vertical photos work better in videos)

The pet is making **eye contact** with the camera in the after photo

The pet's transformation is **visibly dramatic** (even if it's just his surroundings or facial expression)

Your email submission includes **sufficient detail** about the pet's original circumstances and current status

The after photo shows the pet with his or her **adopters** (this is not necessary, but we love to see pets with their new families)

Your **photos are an uploaded file**, not embedded in a Word or PDF document

If you have any questions, please contact Melissa at melissa@petfinderfoundation.com

*The Petfinder Foundation Before and After 2024 Video is NOT a product or cash grant program.

**By applying, your organization grants the Petfinder Foundation unrestricted permission to share the submitted photos and other content with the public, our donors, the media, and Petfinder Foundation partners and represents that it has the right to grant such permission.

Petfinder Shelter ID*

Please enter your Petfinder.com Shelter ID. A Shelter ID is your state abbreviation and a set of numbers that was assigned to your organization when you joined Petfinder.com. EXAMPLE: AZ01

Pet's Story*

Please provide the Pet's story

Cotton was found and rescued in an isolated area in Puerto Rico by an independent rescuer, who also volunteers as a foster mom for cats and dogs. She saw him on the side of the road and stopped to see if he was injured and noticed that had severe scabies and skin problems all over his neck, ears and face. He had been abandoned, and was easy to get into a carrier to rescue him and bring to the vet. He was combo tested negative, fecal done and dewormed, treated for flea/ticks, and thoroughly checked by the vet to assess the treatments for his face and skin. Over the course of the treatments he showed remarkable improvements and got brought to the vet to get neutered. Cotton is very gentle but still wary of new people. He can be shy in new situations. It took two months for him to start becoming at ease and be playful. We tried to get him adopted in PetSmart but due to his shy nature he stayed in the back of the display area hidden and didn't come to the front for people to see him at his full potential. We decided to remove him from the location and provide a foster home environment that is more suited for his personality. And he is thriving! He gets along with his cat siblings in foster and he is comfortable with the foster dogs! We are looking for a patient and loving guardian who can watch him grow old together. A person special like Cotton who gives him lots of love and attention forever. At the time of this submission we are seeking adoption as Cotton is being fostered in a Transport location in Puerto Rico.
