Reviews:

Negligence, irresponsibility, fraud, lies, cruelty and profit. These are the words that define this so-called organization.

A friend adopted a puppy from Pet Smart from Heroes for Paws and they told her that the spay/neuter would be covered... that she should call for an appointment... she called many times and when she managed to get through they told her that the most they could do was give her a \$50 voucher to take her to a vet in Cayey and that my friend had to cover the rest of the money... I have read many very negative reviews about this organization and many cases similar to my friend's...

Lies from the jump. For example, I was told that the puppy was 4 months old and was almost 7. They said it was a Yorkie mix with Shitzu and it turns out the mother was a mix. I paid \$300.00 for that reason. I was told they included me (eg. Toys) and Nothing. And many other things. After more than two months, I still haven't been handed in the vaccine papers. What is there to do? Definitely even though it's a limited liability corporation, it's sued by dolo. But more so, as the contact was through Pet Smart and the transaction was made inside their store in Caguas, as they also respond legally. They have to be stopped somehow. And Pet Smart should take them off their list of partners for adoption.. It's not as easy as giving my money back. It's that there's real and palpable damage here. And reading reviews I realize it's a pattern. Screenshots are already taken, just in case they delete the account.

JUSTA PR

justa.puertorico@gmail.com

JUSTA PR is not an animal rescue organization, nor is it a legal office that handles private consultations or individual claims. JUSTA PR was created due to the need to **educate the public** about animal rights and other legal aspects that affect us. JUSTA PR believes in ethics and mutual respect, so any comment that does not comply with this will be deleted. Comments against animals, as well as insulting, degrading, discriminatory and political comments are not allowed on this page and will be deleted.

Animal Cruelty Researchers - IcaEducapr

Education plays a fundamental role in our philosophy; This is why we took on the task of developing the ICAEDUCAPR.COM portal. This portal presents: our organization, Law 154, information on minimum pet care. There is also a section within the portal where any person, teacher, group or organization will have access to our teaching materials for free. Among the wide variety of material available are: coloring sheets for boys and girls, Law 154, a list of crimes of cruelty and abuse, penalties and fines. Also, a table (widely used by police officers, as a reference) that will help you determine what physical condition a dog or cat is in.
